

ROUTINE *Aquarium* NEEDS

SERENITY AQUARIUM & AVIARY SERVICES

Please Don't Feed the Fish

Our automatic fish feeder is set to feed the fish an appropriate amount of food on a regularly scheduled basis. If you feel your fish are not being fed appropriately, please call the number listed below.

Glass Cleaning

To keep the glass clean and clear, please use the magnetic algae scraper, located on the side of the tank, 3 times per week.

Water Volume Control

Please check the water level in the Seamless SUMP every 2-3 weeks, adding water to the "MAX FILL" line as needed.

Removing Unwanted Debris

Please use the provided fish net to remove any extra food or dead fish.
